

Dura-Drive™

INDUCTION MOTOR

The driving force inside In-Sink-Erator® high performance disposers is the exclusive Dura-Drive™ induction motor. These rugged motors are designed and manufactured by In-Sink-Erator® to the same exacting specifications found in major appliances, such as washers and refrigerators. Powerful and heavy duty, these motors are featured on the 777ss, 555ss, 444 and Badger 5 Plus models. With Dura-Drive you can count on long life and durability.

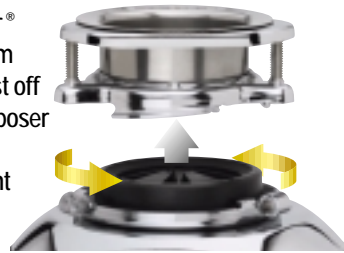

Model 777ss shown

Exclusive Quick Lock™ Sink Mount

Rugged, steel In-Sink-Erator® mounting assemblies seldom need replacement. Just twist off your old In-Sink-Erator® disposer and twist on a new one. Exclusive Quick Lock™ mount makes installation a snap.

Fast Installation!

Complete, easy-to-follow instructions are included with each disposer.

In-Home Full Service Warranty

In-Sink-Erator® makes service easy and hassle-free! When service is required, there is no need to remove or return the disposer.

Repairs or replacement will be made in your home at no charge during the warranty period by an authorized In-Sink-Erator® service agent.

See carton for complete warranty information.

Accessories

Use only original In-Sink-Erator® accessories.

Installation Accessories

Flexible Discharge Tube
Uniquely designed to accommodate most plumbing installations.

Dishwasher Connector
Allows for any size dishwasher drain hose connection.

Power Cord
UL approved to resist moisture and safely connect disposer to a plug-in outlet.

Convenience Accessories

SinkTop Switch™
Place a convenient on/off switch on the sink or counter top and eliminate the need to wire to a wall switch. Provides deck mount convenience.

Custom Stopper
Heavy duty stopper in designer colors – white, black, almond and polished brass (shown).

Custom Sink Flange
Available in designer colors – white, black, almond and polished brass (shown).

IN SINK ERATOR®

Here's why professionals choose In-Sink-Erator® food waste disposers!

Ask any builder, plumbing contractor or kitchen dealer why they recommend only In-Sink-Erator® and more than likely their first answer will be – **RELIABILITY!** Every In-Sink-Erator® disposer is engineered to work hard – day in and day out. Powered by rugged induction motors and mounted to your sink with tough, stainless steel assemblies, In-Sink-Erator® disposers are designed for years of trouble-free service.

Consider these important benefits when selecting your new disposer.

- Faster, More Efficient Grinding**
 Increased horsepower allows the disposer to grind even tough bones quickly and efficiently. Look for a model with more horsepower and larger grind chamber capacity.
- Quieter Operation**
 Deluxe disposer models incorporate insulated sound shells that shield grind chamber noise. Additional sound deadening on the 777ss is achieved with a secondary sound baffle.
- Longer Disposer Life**
 Deluxe disposer models use stainless steel extensively in the grind system to prevent corrosion from shortening the life of the disposer. A full stainless steel grind system is the best choice.
- In-Home Warranties**
 In-Sink-Erator® provides every new owner with the assurance of an In-Home Service Warranty for up to 7 years. Over 2500 Authorized In-Sink-Erator® Service Agencies are waiting for your call.
